

DESIGNERFORM

Thermolaminated Vinyl Door & Panel

Warranty Care & Cleaning Instructions

Designerform provide a limited seven (7) year warranty on all Thermolaminated Vinyl Doors and Panels. Warranty cover is against manufacturing defects and workmanship, provided that any problems detected are notified to Designerform within seven (7) years from the date of manufacture.

Thermolaminated Vinyl Doors and Panels are made from a Moisture Resistant Medium Density Fibreboard, manufactured from the highest quality materials.

Care should be taken to ensure that the doors and panels are not exposed to high or continuous levels of moisture, steam or humidity and that any spills are attended to immediately, as no wood based panel can be made totally waterproof.

Cleaning:

- Wipe down doors and panels with warm soapy water using a soft damp cloth
- For cleaning more stubborn stains, use a mild household cleaning spray; always refer to the manufacturer's recommendation provided on the cleaning product before use

Do Not use any of the following products on thermolaminated vinyl doors and panels:

Abrasive Cleaners	Abrasive Papers
Acetone	Acids & Alkalis
Ammonia	Bleach
Commercial Cleaning Products	Methylated Spirits
Methyl Ethyl Ketone M.E.K	Organic Solvents
Solvents	Scouring Pads
Turpentine	Thinners

**Failure to follow the above care and cleaning instructions could result in damage to your door or panel and void your entitlement to the warranty.
